- ASU OSHA 501 Course Workbook
- General Industry Outreach Training Material (PowerPoints®, Instructor Guides, Student Handout Materials, Videos, etc.)
- Card request portal user guide
- Much more!

# OSHA COURSE #501

## Course Description

OSHA course #501 Trainer Course in Occupational Safety and Health Standards for General Industry, is designed for personnel interested in teaching the 10-hour and 30-hour general industry safety and health outreach programs to their employees or other interested groups. Special emphasis is placed on those topics that are required in the 10 and 30 hour programs as well as on those that are most hazardous, using OSHA's standards as a guide. Course participants are briefed on effective instructional approaches and the effective use of visual aids, handouts, multimedia materials and other teaching tools and techniques. The course also includes instruction on the rules and regulations pertaining to the OSHA Outreach Training Program including required format and content, class restrictions, and the procedures Trainers must follow to obtain the OSHA 10 and 30 hour course completion cards for their students.

## Additional Information

Participants in this course must first complete an OSHA #511 General Industry Standards Course and must submit proof of a minimum of five years of general industry safety experience (see the *Prerequisite Information Form* for more information and for substituting academic work for experience).

This course is offered on an open enrolment basis in classes scheduled throughout OSHA Region 9 (Arizona, California, Nevada, Hawaii and South Pacific Island Territories of the U.S.). This course can also be conducted on a contract basis anywhere within OSHA's jurisdiction. For more information go to <http://osha.asu.edu>.
